  Help Desk Assistant
  - Provided technical support for hardware and software issues.
  - Assisted with troubleshooting network problems.
  - Conducted regular maintenance of computer systems and peripherals

---

Education

- **Currently:**
  - I am developing personal projects, web pages using HTML, CSS, JavaScript, Tailwind CSS and WordPress.
  - I have been diving into concepts like supervised // unsupervised learning, decision trees, and neural networks. It's still early in the journey, but I'm enjoying this process and understanding how machines can learn from data.

- Microsoft Front-End Developer:
  - UI/UX Design Principles
- IBM Full Stack software Developer:
  - Coursera Professional Certificate JavaScript, React.
- IBM Artificial Intelligence Developer:
  - Coursera Professional Certificate IBM Watson

- Computer Programming Diploma - Durham College, Oshawa, ON:

  - Developed foundational skills in Python automation processes and handling programming languages like JavaScript, PHP, Java, or markup languages like HTML, and libraries like React, or frameworks like .NET or Tailwind CSS.
